

THERE'S BEEN A FLOOD IN YSGOL YR ESGOB!

English hook.

The children enacted surviving a flood, with the sound of heavy rain blaring through the speaker and the teachers flicking water at the children! The children had to work in groups and role play surviving a flood, choosing 5 survival items to pack and going on their journey to safety and encountering many problems along the way. They had to use their communication, problem solving and teamwork skills. At the end of the activity, we reflected on if they had chosen the best survival items and if they would change any and discussed if / how they could work better as a team.
